Hereby declares that the radio remote control referenced below

Type material: MODEL N° DM-433-03 (same as HM-433-03 model)

Serial number S/N: 61-433-26

Is in conformity with the requirements of the **ETS 300 683** standard (relative to the CEM tests).

The tests have been carried out according to the **ETS 300-683** standards which include the following:

- **EN 55022** - Measurement of disturbances carried out from 150 kHz to 30 MHz (class B).
- **EN 61000-4-3** - Susceptibility to electromagnetic radiations from 80 MHz to 1000MHz (3 V/m).
- **EN 61000-4-2** - Immunity to electrostatic discharges (+/- 4 kV with contact +/- 8 kV without contact).
- **EN 61000-4-6** - Immunity to disturbances from radio frequencies in conduction from 150 kHz to 80 MHz (3 V).
- **ISO 7637-1** - Immunity from current impulses (impulses n°1, 2, 3a, 3b, 4 and 7).

Issued by AEMC measurements on February 1st, 2000 (Technical report n° L00037N).

Is in conformity with the following standards:

- **EN 61000-4-2 level 2 criterion A** - For discharges with contact
- **EN 61000-4-3 level 3 criterion A** - For discharges without contact
- **C1 EN954-1, Cat. 3** - Double protection of the control contacts.
- 70 milliseconds maximum reaction delay between signal loss and command cut-off.

Issued by NCE on June 14th, 2001 (test report n°R0106083C-C).

Delivered on : 27/03/2009
